SKILLS

Programming Languages
NodeJS, JavaScript, Typescript, Python, HTML,CSS

Libraries & Frameworks
Express.js, ReactJS, Django, Flask, WebRTC, GraphQL, Socket.io, Mocha, Jest

Tools & Platforms
Git, Firebase, AWS,Heroku

SELECTED PROJECTS

PrestoCharts
It provides the data analysis solution based on data visualization libraries like ChartsJS & Echarts.

Miricam
It is real time one to one & conference call solution based on peer to peer architecure of WebRTC.

EDUCATION

RGPV University, Bhopal (M.P.)

Bachelor of Engineering in Computer Science Engineering

SUMMARY

A highly skilled and experienced Computer Science engineer with over 6+ years of experience in industry involving in analytical programing software development, design & testing of web based application.

WORK EXPERIENCE

IT Analyst
TCS (November 2021-present)

- Work with a variety of different languages, platforms, frameworks, and content management systems such as Python, NodeJS, and React
- Communicate with multi-disciplinary teams of engineers and clients on a daily basis
- Written modern, performant, maintainable code for a diverse array of client and internal projects
- Coordinated with other engineers and onsite client to ensure seamless integration of systems with other building systems

Sr. Software Engineer
Yashco Systems. (July 2018- October 2021)

- Engineered and maintained major features of customer-facing web app using ES6, Angular, React with Real time communication with WebRTC & Socket.io
- Proposed and implemented scalable solutions to issues identified with cloud services and applications responsible for communicating with web applications using NodeJS and Python

Software Developer
Mobiweb Technology (July 2016- November 2017)

- Engineered & maintained major features of customer facing ecommerce application using AngularJS with Angular material.
- Created backend single API collection in the Express JS for mobile & web application.
- Worked closely with the client and other UX design team to identify requirements, develop design specifications.

NodeJS Developer
FlairIT Solutions (February 2016-June 2016)

- Developed and maintained code for in-house & client application
- Converted Old web application to modern single page application in Mean Stack increasing the performance and user experience.
